

Benefits of Hu-More Plant & Soil Builder Plus

with Alfalfa Hay & Cotton Burrs • Weed-Free • Chemical-Free • Odor-Free

Mulching Direction

Plant & Soil Builder Plus is an excellent mulch material. It improves the soil's ability to retain moisture and feeds the plants as naturally organic nutrients are released when water is applied.

Fall Mulch

Protect your plants and lawn throughout the winter with a blanket of PSB Plus. Apply 1 inch around plants and shrubs. Water thoroughly after mulching and make sure water penetrates mulch to the root zone.

Encourage Recovery of Damaged Turf

Apply a minimum of 400 lbs of PSB Plus per 1,000 sq. ft of damaged area in the spring and fall. Spot-treat damaged areas as needed during the growing season.

Plant & Soil Builder Plus Guaranteed Analysis

Total Nitrogen (N)	1%
*.75% Water Insoluble Nitrogen	
*.25% Water Soluble Nitrogen	
Available Phosphate (P2O5)	1%
Soluble Potash (K2O)	1%

Ingredients: Humus (derived from aerobically composted and sifted cow manure), cotton burrs, and alfalfa hay.

*.75% is slowly available Nitrogen

Do not use PSB Plus straight except as mulch!

Lawns * Potting Soil amendment

- Improves Water Holding Capacity in Light Soils
- Encourages Recovery of Damaged Turf

Planting Direction Premium Planting Mix

Mix 1 part PSB Plus with 3 parts potting soil.

Trees & Shrubs

Use 5-10 lbs per tree and 2 lbs per shrub of PSB Plus in the backfill soil. Mulch the water retention bowl with 1-2 inches, especially 5 ft. past the drip line to reach the feeder roots of the tree.

Roses

Mix 1 part PSB Plus with 3 parts planting mix or soil. Mulch around each rose with 1 inch in the fall and spring.

Vegetables

Apply ½ inch wide of PSB Plus down row before planting. Incorporate 1 inch. For tomato and pepper plants, mix 1 part PSB Plus to 3 parts soil. Mulch 1 inch after plants are up.

Flower Beds*

Apply ½ inch of PSB Plus and incorporate in top 2 inches of bed. Mulch around plants with 1 inch of PSB Plus.

New Lawns*

Apply ½ inch of PSB Plus and incorporate 2 inches with tiller when preparing the soil BEFORE seeding or sodding.

House Plants

Apply ½ inch of PSB Plus in top of pot.
